## PROFILE SUMMARY

A dedicated and motivated individual with passion for web development, I am always eager and excited to apply my skills and knowledge to create innovative and user-friendly websites and real-world projects. With a strong foundation in technologies such as HTML, CSS and JavaScript, I am committed to staying up-to-date with latest web development technologies and techniques. I have completed several personal projects including building a fully responsive food delivery website. I am adept at problem solving and enjoy working collaboratively to achieve project goal. I aim to always leverage my skill and exposure to developing engaging and impactful web solutions that enhance user experience and drive business results.
