## Profile

A dedicated and motivated individual with passion for web development, I am always eager to apply my skills and knowledge to create innovative and user-oriented web solutions. With strong foundation in technologies such as HTML/CSS and JavaScript(React), I am always eager to staying up-to-date with latest web development technologies and techniques. I have completed several personal and public projects including building a fully functional pastry delivery website. I am adept at problem solving and enjoy working collaboratively to achieve project targets.

## Project

### Music Streaming App

2023

- Built a full functional music streaming web app using JavaScript
- Developed features to allow users create preferred playlist folder.
- Maintained consistency in UI to ensure pleasant user experience.

### Food Delivery Website

2022

- Built a fully responsive food delivery web application which allows users to order different food items.
- Designed appealing interface using CSS and JavaScript animations frameworks to give users awesome view experience.
- Created a cart page component which allows users can add or remove items with updated price and quantity, also with a checkout functionality.

## Work Experience

### Customer Representative

2020 - 2022

Errand NG, Nigeria.

- Managed customer services to address complaints relating to products and services.
- Collaborated with marketing and sales teams to personalize marketing and interactions.
- Ensured reinforcement of customers' loyalty.
- Deployed the use of social media in engaging customers.
- Participated in customer analysis to identify opportunities that improves the company.
