## Profile

Experienced web developer with over 2years of expertise in developing dynamic and responsive web applications using React, Node.js and Tailwind CSS. Thoroughly proficient collaborating with cross-functional teams to deliver high-quality digital solutions, ensuring optimal user experience and performance. Dedicated to continuous learning and staying updated with latest industry trends and technologies.

## Work Experience

### Open Source Contributor            Sept., 2024 - Dec., 2024

**QuikMeds**

- Contributed to an open source project by interpreting UX designs into code, ensuring accurate and effective implementation of design elements.
- Developed reusable components using React and Tailwind CSS, enhancing the project's modularity and maintainability.
- Collaborated with other contributors to review and merge pull requests, maintaining code quality and consistency.
- Actively participated in community discussions to provide feedback and suggest improvements to the project.

### Freelance                          Feb, 2024 - May, 2024

**Tishe's Place, Remote(Contract).**

- Revamped company's outdated website and improve its functionality, collaborating closely with a team of developers, including designers and backend engineer, to create a visually appealing and user-friendly website.
- Built a user-friendly registration form with validation and integrated it with a functionality to store the information securely.

### Junior Developer                   Feb 2023 - Nov 2023

**ErrandNG, Lagos.**

- Assisted in the development of web applications using React, focusing on front-end integration.
- Implemented responsive design principles, applying Tailwind CSS to ensure optimal user experiences on different screen sizes.
- Contributed to the implementation of new feaures such as product search filters and product user reviews.
- Worked closely with senior developers to troubleshoot issues and perform debugging.

## Project

### Image Editor                                          2023

- Developed a feature-rich editor for images, using JavaScript to implement functionalities such as image resizing, filters and adjustments.
- Ensured a user-friendly interface and smooth performance for an enhanced user experience.
- Implemented a download feature that enables user to save edited copy of images on their devices.
